

PRODUCTS & CAPABILITIES

- Over 34 years of experience in design and manufacture of specialist automotive electronics systems & solutions.
- 60+ employees and global network of over 250 dealers in over 50 countries .
- DATA LOGGING SYSTEMS and analysis software for enhanced fleet management, driver training, and vehicle operations monitoring.
- DIGITAL COLOUR DISPLAYS enhancing platform capability, vehicle operation decision support, situational awareness and future-proofing.
- ELECTRONIC & ENGINE CONTROL SYSTEMS enabling a wide range of vehicle performance and capability enhancing solutions covering ICE, Hybrid and EV applications.
- POWER DISTRIBUTION MANAGEMENT systems enabling simplified system integration and enhancing vehicle capability and reliability.
- ACCIDENT DATA RECORDING SYSTEM enabling accident data analysis and driver behaviour and performance monitoring.
- CUSTOMISABLE BY SOFTWARE - all MoTeC products & systems functional capabilities are customisable with MoTeC software.
- MOTECH DESIGN CAPABILITY - advanced electronics design and software development, & systems application and integration capabilities.
- ELECTRIC & HYBRID VEHICLE CONTROL – MoTeC products, systems & capabilities are now being applied to enabling EV & Hybrid vehicle solutions.

SOLUTION CUSTOMERS INCLUDE:

Australian Department of Defence
Thales Australia
BAE Systems
Mercedes Benz

Rheinmetall
Supacat
Steyr Motors Australia
Williams Engineering

DISCRIMINATORS

- Products in current Defence service applications, including MILSTD compliance.
- Products proven in the demanding professional global motorsport environment.
- Established reputation for innovative, tough, reliable, & capability & performance enhancing products.
- MoTeC products are designed in-house, ensuring effective and responsive support and product integration.
- Continual significant resources commitment to R&D and product improvement, covering hardware, firmware and software
- Global Technical Support team supporting OE activities.
- MoTeC Europe – UK based team providing local product technical and logistics support in Europe region.
- MoTeC US – US based team providing local product technical and logistics support in USA region.

QUALITY APPROVALS

Production under:

- ISO 9001: 2008: AU10/79616.00
- ISO 13485:2003: AU07/71132.00
- ISO14001
