

Company's overview

Australian Company since 1970 - Design, Manufacture, Commission, Service & Support of Special Purpose Cooling systems and equipment:

- Military vehicle dehumidifiers
- Environmental Test Chambers and Rooms
- Portable hospitals & pharmaceutical
- Mobile & Ruggedised Refrigeration and HVAC Equipment
- Solar Powered Site Generators
- Solar Power HVAC & Refrigeration
- Transport Refrigeration Systems
- Containerised Refrigeration Systems
- Mining and Production Air Dryers
- Air Cooling and Drying for Defence Vehicles
- Sustainable / Zero Emissions Cooling

Company's core capabilities

- **Export proven:** Successful projects delivered across the world, including the Middle East, India, Indonesia, Antarctica and Europe.
- **Combat proven:** Heuch equipment has been on active war zone deployment since 1980 with RAAF & Australian Army.
- **Local:** Australian engineering. Fast prototyping and manufacture.
- **Knowledgeable:** Leader in applying new refrigeration technology.
- Unique insights and experiences from a diverse customer base: Mining, Petrochemical, Pharmaceutical, Medical & Defence.
- Complete through-life service provider for specialised refrigeration systems.
- Full field servicing with in-house, real time engineering support.
- **Haz-Op and Military spec.** design and manufacture
- LEAN Manufacture processes.

Sample – Major clients

Mobile Comms Shelter
Airconditioning operating on 400 Hertz only. For AN/TPQ-36 FireFinder program.

Ultra low temp cool rooms for advanced materials manufacture, Degreaser tanks, Rocket fuel test and storage rooms (Melbourne).

Mobile Mortuary and Pharmaceutical Cool Rooms for rapidly deployed hospitals. Part of the JP2060 program

Degreasers, Cool rooms & Air Dryers for Munitions Factory (Vic & S.A), Naval dockyards (Williamstown, Vic).

Vehicle Dehumidifier and Battery charger to ensure electronics are combat ready for the full life of the vehicle.

Radar Oil Cooling, JORN Over Horizon Radar project (Aust wide), Air Dropable -18 °C refrigerated Tricones (Amberley, Qld).

Haz Area Offshore Refrigeration Systems (Bass Strait), Industrial Control Room HVAC for Gas Plant (Longford, Vic).

DSTO Environmental Simulator & Equipment Test Chamber (Fishermens Bend, Vic).

Quality standards & accreditations

- ISO-9001:2008 Quality Assurance System with 3rd Party accreditation by QAS (QEC6873)
- Recognised Defence Supplier Ref: NCAGE (NSN): Z4556
- Australian Refrigeration Authority: AU05486
- Australian Registered Electrical Contractor: REC25654
- Australian Industry Group – Member
- Power & Tech – Registered Industry Member
