

Company Overview

Ocean is a leading provider of solutions that drive operational efficiency, improve safety, and deliver significant ROI to customers in 14 nations across the globe. Our products are designed to maximise operational effectiveness wherever there is a need to coordinate multiple facilities, assets, people, and resources in high-risk and complex environments. Our solutions for Defence, Government, and the Private Sector are developed to provide the rigorous data-security demanded by high compliance environments and accredited on multiple classified high and low military networks.

Products

At the core of all systems are digital transformation, AI schedule optimisation, actionable data analytics and supported by a team that understands the Defence industry.
